

Government Services

Reed Integration Inc. 's (Reed) strategy is that of a confidential and trusted agent for contract management and strategy execution. Reed is a privately held company with no contract tasking with any organizations developing systems, components, or end products. Therefore, our team of experienced professionals can bring their experience to bear for our clients absolutely free of conflicts of interest (COI) concerns (FAR subpart 9.5—biased ground rules, unequal access to information, or impaired objectivity), rendering fair and impartial advice. For this reason, Reed is capable of providing:

- CONOPS / ORD / SRD Development
- Independent Cost / Schedule Risk Assessments (IRAs)
- Independent Cost Assessments (ICAs)
- Independent Technical Assessments (ITAs)
- Independent Program / Project Assessments (IPAs)
- Independent Trade-Off Studies (ITOs)

The above is only a partial list of the Government services Reed provides. It is our commitment to assist our clients by delivering high value, innovative, professional services and advice. Our focus is on fostering business value in every engagement.

To ensure we maximize the value we provide, we adopt customized and multidimensional approaches, relying the right technology / software and other tools to increase the effectiveness of our work.

Why Reed is the Right Choice

- Unbiased Advice
- No Conflicts of Interest (COI, OCI)
- Easy to contract with: WOSB/EDWOSB, 8(a), SDB, SeaPort-e 8(a), SPAWAR 8(a) Cyber-Pillar (Imagine-One Stracon JV), USCG TEDSS (Goldbelt Falcon), AMCOM Express (Stanley), GSA MOBIS

Engagement:

Reed Integration works on a project basis to deliver complete, discrete and measurable blocks of value to our clients. By carrying out project work we can align our skills and resources in the most productive way to deliver outstanding results.

Three value principles underlie our engagement model, and our ability to optimally combine all of them makes us unique:

- ◆ We use the latest technologies—our involvement in services, training, academia, and professional societies enables us to ensure we're at the cutting edge while keeping us firmly anchored in established, trusted tools and methodologies
- ◆ We tackle our clients' highest value challenges—we know what it takes to move the needle and have built our organization to be at its best when delivering projects of strategic importance to our clients
- ◆ We optimize value provided for the lowest reasonable cost using a mixed delivery model. For every project, we work out the ideal combination of on-site and off-site re-

Commitment to Integrity
